PROFESSIONAL SUMMARY

Full Stack Software Engineer with professional experience building scalable REST APIs, real-time WebSocket applications, and event-driven microservices using Apache Kafka. Proficient in the MERN stack with TypeScript, CI/CD pipeline management, and cloud deployment on AWS.

EXPERIENCE

Full-Stack Developer intern

Eppetech.com

02/2026 – Present
Southn Africa Remote

I'm currently leading a cross-platform learning platform project built with the .NET framework. This platform integrates mobile, desktop, and web interfaces, offering a comprehensive learning experience. I've developed the full front end and am currently implementing the back end with .NET and SQL. This project showcases my ability to manage full-stack development across multiple platforms in an educational product space

Frontend Developer Intern

textology.net

12/2025
Remote

- Collaborating with a Senior Developer.
- Developed frontend interfaces for multiple projects.
- Built UI for product-based platform: <https://textology.net>.
- Focused on responsive design and modern UI/UX.
